

Pt.Talks

Engaging in an international and interdisciplinary discourse about urban development and planning theory

Lehre	Stegreif	Robin Chang
Master		Martin Bangratz
SS 2022		Agnes Förster

The aim of this Stegreif is to engage in meaningful conversations about various topics in the area of planning theory and urban development with young scholars from a range of international institutions and disciplines. Participants will be invited to attend three Pt.talks, a new event series by Pt with the aim to foster a scientific and public discourse about current and emerging critical topics in urbanism. Within the guiding theme of global challenges for sustainable urban development, we see this format as an opportunity to explore new areas of research from different perspectives.

Each talk will feature a young researcher giving a talk on a specific topic and provide for informal, open discussion among all guests. The format can give students an opportunity to network across thematic and geographical boundaries, exchange feedback, and be inspired by new inputs and discussions.

Introduction:
Wednesday 13.4. 4:00 to 5:00 pm,
Zoom

Dates of the events:
Wednesdays, 20.4. / 11.5. / 22.6.
05:30 to 07:00 pm, Zoom

Examination:
Friday 15.7. upload by 11 pm

Recognition:
1,5 ECTS
